

PARK MANOR OF QUAIL VALLEY SUCCESS STORY

Mr. W. was admitted to Park Manor Quail Valley from the hospital due to surgery needed to remove a blood clot in his brain after a fall. He was unable to ambulate and needed 75% to 100% assistance from nursing staff and therapist.

After two weeks of therapy and nursing care at Park Manor, Mr. W. was able to ambulate with a rolling walker up to 200 ft needing just supervision. He is now able to transfer in and out of bed without help, and can perform all activities with only supervision and at times without any help!

Mr. W. will be ready to successfully return home soon. We are very proud of the improvements that he has made at Park Manor Quail Valley!
